

HAY FEVER!

TO those who are compelled to leave their homes every year and go to some northern part of the state in order to get relief from the annoying symptoms of hay fever, and to those who are compelled to stay home trying to get relief in some way or another:

I have a message of hope that under my method very good results are obtained and that there are possibilities for the sufferer to escape an attack if he or she comes under my care several weeks before the season for hay fever opens.

Herman Page, Bishop of the Diocese of Michigan, last Monday, will be one of the most beautiful edifices of its kind in this section of the country. It is but a part of a great institution planned for early construction in this vicinity.

According to W. Nelson Whittemore, of Wynterme, Ogdyske road, all flower shows or exhibits of this kind, many persons feel that stock in display is not as good as some varieties of their own gardens. "These are the people that we would like to have exhibit rather than tell us, at the show, about what they left at home," said Mr. Whittemore.

"Grape" in "Grapefruit" Grapefruit is supposed to have been so called because it often grows in bunches or clusters resembling grapes. The fruit was originally a native of southern Asia from where it was introduced into Florida and the West Indies by the early Spanish colonists.
