MAYTAG WASHER NOW ON BROADWAY One would ordinarily think of at least 15,000 places to look for washing machines before thinking of Times Square, Broadway. Yet the fact is that the Maytag, the world's largest and greatest washing machine, is now to be found in the very heart of America's night life center.

Some things have come to light in the canning factory situation. Brownwell is trying to get it. We've got straight that they're making statements with the full intention of hurting our chances. As for instance, they've said that the name folksburg on a can label would make people laugh; which admits we're better known than that.

Harley Burton, who has more or less reputation as a mechanical genius, has been considerably depressed these days. He says he has about somebody making a lot of money out of a new invention, and Harley says he had the very same thing thought out last summer and didn't go ahead with it.

John Penny and his wife, Annie, celebrated their Golden Wedding, day last Sunday. They took their dinner and walked out to the big Bradley place south of town, which Annie's folks used to own and where she was born. She came from about the best known family in this section, and John is said to have been very proud as a young man. But somehow he lost out on everything he tried, and he finally had to turn in doing any kind of odd jobs to make a living. It's hurt him a good deal on Annie's account. But she taught him to be a Sunday school teacher, and she is very proud of him now than she was fifty years ago.

Coldness Without Ice An Electric Refrigerator [everybody is buying them nowadays] takes your meats, your vegetables, your milk—in fact, anything that might spoil—and keeps them cold and fresh as long as you like. No ice to bother about, no work to do. An Electric Refrigerator in the kitchen makes it the easiest thing in the world to have delicious frozen dishes, salads cool and crisp, dainty little cubes of clearest ice for cold drinks or melons or fruit-cups, or to serve your butter on. You can buy an electric refrigerator on very easy terms. Come in and let us tell you more about its great convenience, and the economies it makes in your housekeeping.

THE DETROIT EDISON COMPANY NEW GOLF CLUB PROPOSED Edgewood Park on Lower Straits Lake, a summer community development, is being considered as a location for a new golf course. Ernie Way, the professional golf course builder, has surveyed the property and reports a sportsy nine hole course can be built at a minimum of expense. It is the plan of Walsh, James & Wasey Company, developers of Edgewood Park, to build a clubhouse on the lake front lots, entitle one to a membership in the golf club. Twenty percent of the lots have been sold and as soon as fifty percent have been sold definite steps will be taken to organize the club, elect officers and start construction of the course. The old farm house can be re-modelled into a clubhouse, a locker-room built adjoining. The old house is in a group of trees so the setting is very pretty. The beauty of the combination of a summer cottage and golf course is the convenience. A man can drive from Detroit and be on the course in plenty of time in the evening to be able to play nine holes before dark, then can take a shower or a plunge in the lake, have a good night's sleep and get back to town the next morning "fit as a fiddle." The women folks can step right out of their door onto the course during the day and have the fun of a good game of golf without a long auto ride. When through they will walk to the clubhouse in the name of the "Cross Roads of the World," as Times Square is so often called. There is banker and baker, buyer and bride; to housewife and to movie star; to representative citizens from nearly every community in the U. S. to distinguished visitors from the Old World and awe-stricken arrivals in the New World. To thirty million pairs of eyes each month, the Maytag name shines forth in effulgent glory and the Maytag wash thinks it way to immortality. Perhaps there is some truth in the theory of reincarnation. We know some women thirty years old who can clearly remember events of the past forty years. Sewanee Mountain Goat.

The Smaller the Cottage the Larger the Love So goes the old saying. And it is more easily accomplished today than in olden times, because the small modern cottage of today can have all the conveniences and comforts of an elaborate mansion and still be constructed at a moderate cost. The above design is one of the coziest little cottages our Architectural Bureau has ever produced. Small though it is, there is no waste space and a surprising amount of room is enclosed in its four walls, with modern facilities to enjoy every inch of it. Drop into our office and get your copy of our New Book of Home Plans that will give the floor arrangement and more complete details of the construction of this and many other attractive homes. There are also many valuable suggestions for anyone who is planning to build a new home. R.C. Moulthrop Lumber Co. LUMBER COAL AND BUILDERS SUPPLIES BIRMINGHAM MICHIGAN
