TO INSTALL WATER MAIN

Village manager Starr Monday night was directed by the commission to prepare maps and diagrams, together with an estimate of the cost of construction, of a six-inch water main on Pierce street, from Lincoln avenue south to Bird avenue. This main will relieve conditions at the Pierce street school, to which water is now carried for drinking purposes.

Reminiscent of Old Colonial Days

This design, in modern construction methods, is very popular. Simplicity is the chief keynote and yet the outlines of this substantial home are in no way commonplace. Its quaintness lends itself most admirably to artistic decorative treatment.

This is only one of
A Wide Variety of Designs

shown in our NEW BOOK OF HOME PLANS, among which are Colonials, Bungalows, Cottages and two-family homes, with floor plans supplementing each illustration. A copy of this beautiful book is yours for the asking. We are sure you will find it a big help in making a choice of designs for your new home.

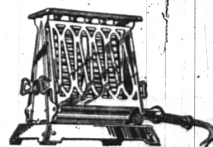

We shall be pleased to quote you the complete cost of any home shown in this book of plans, without placing you under any obligation to purchase. Blue prints and detailed construction drawings for any of these designs are furnished free of charge if the building materials are purchased from our lumber yard. Drop in and see us.
