

Talks Over First Phone

Mrs. Ella Orr, secretary to Albert E. Berry, president of the Chesapeake & Potomac Telephone Company at Washington, is shown talking over the first telephone made by Alexander Graham Bell. It was used to celebrate the fiftieth anniversary of the telephone recently.

GARNER MILLER, Troy Township Clerk.

A TOURIST'S GLIMPSE OF WASHINGTON

(Continued From Page 1.) but were shortly able to find a hotel which was completely filled as a result of the convention of the National Educational Association. The following day, February 22, in company with Mr. and Mrs. Clarence Vliet, we drove out to Mr. Vernon which was the scene of a great religious gathering on the day of the Father of their Country. The home of George Washington commands a wonderful view of the Potomac River which stretches past the old estate in a calm and majestic way. Far in the distance, and at the end of the river, passes down toward Cape Anne the white tower of the left bank of the curving approach to the White House from Washington. Mr. Vernon is in a most beautiful spot of preservation and retirement, a remarkable gathering of the buildings of a country home at the end of it was seen.

number of the public officials coming very bitterly about being compelled to live and to work in such a hotbedless no-man's-land. The city planner Francis lay out the City of Washington and while it soon became involved in a dispute with the commission appointed to work with him and the Washington residents were making a quarrel with the city. The city was laid out in a rectangular plan, with a grid system, and the streets were laid out in a grid system. The city was laid out in a rectangular plan, with a grid system, and the streets were laid out in a grid system.

Oppand to Name... The city was laid out in a rectangular plan, with a grid system, and the streets were laid out in a grid system. The city was laid out in a rectangular plan, with a grid system, and the streets were laid out in a grid system.

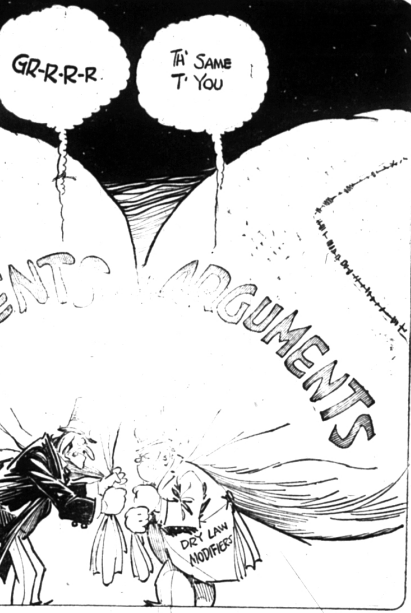

She's the Only Lady Who Has Had President Coolidge as Her Escort

MRS. WILLIAM M. JARDINE, wife of the secretary of agriculture, is the only "cabinet lady"—or any other lady, excepting only the present mistress of the White House—who has had the honor of going out to dinner with President Coolidge as her escort.

President and Mrs. Coolidge were invited to dine with Attorney General and Mrs. John Garibaldi Sargent, in the presidential suite at the New Willard. They accepted. It was one of the regular cabinet dinners, which the members of his official family are privileged and an expensive privilege to give to the president.

President Coolidge had had a cold, but not better. In the meantime, however, Mrs. Coolidge had recovered. At the last minute she couldn't go. The president needed someone to take with him. He decided to take the sharke on presidential etiquette who abound around the White House. They cited precedents from the days of President McKinley. Mrs. McKinley was an invalid. Her husband frequently asked the wives of members of his cabinet to accompany him in social functions—to the etiquette sharke.

Hudson-Essex Cars At New Lower Price

Prices of Hudson and Essex cars are now at the most favorable levels of their history as the result of three recent rapid-fire moves by the Hudson organization.

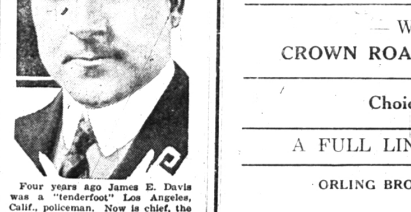

The first announcement of this series was the adoption by Hudson-Essex distributors and dealers of an at-door-door system of quoting motor car prices, replacing the f. o. b. factory plan of many years' standing. Closely following this came the announcement of making the federal automobile tax reduction immediately effective. On top of these moves, the announcement was made this last week of a horizontal reduction of \$50 a car on the Hudson and Essex coaches and the Hudson Super-Six brougham.

Many visitors enjoy a trip through the Bureau of Engraving and Printing where paper money, bonds, and stamps are printed. Here about twenty million dollars worth of paper money are printed each day. Yesterday a very strict accounting of the work is made and every stack of bills is counted twenty times before it is turned over to the treasury.

Off Street to Enroute... The national capital and the White House are popular points of interest to tourists and we visited the latter about the time the Appropriation Bill was being passed by the House. It was held at 2:30 by the House and the Senate passed it first in voting. The Senate passed it first in voting. The Senate passed it first in voting.

River Changed Course... The Hoop river changed its course in 1851 and changed its course so as to flow into the Gulf of Mexico. Within two years its mouth had shifted 250 miles from its original position.

Young Chief... Four years ago James E. Davis was a "tenderfoot" Los Angeles, Calif., policeman. Now in chief, the youngest ever in that city.

"We have ever known," said Chas. Boughner of Boughner Bros., dealer here. "Any one of these steps might have been a great event in itself; combined, they make up in most aggressive and forceful bid for a tremendous spring business.

"Hudson-Essex at-your-door prices are the figures at which an equipped car will be delivered at any place of residence, with no further extras to pay. It is my prediction that this program will find such favor that public pressure will make it universal.
