

Accurate Construction Details

with blue-print drawings, insure your getting just the home you have been dreaming of. Your ideas can be put down on paper and our architectural department will be glad to put those ideas into practical shape in blue-print form so that they can be interpreted by the contractor and incorporated in your new home.

To assist you in making your decision as to design, room arrangement and special features, we have prepared a NEW BOOK OF HOME PLANS, showing a great variety of types and construction of homes, each illustration accompanied by floor plans.

After making your selection and indicating any changes in design which you may wish, our architectural department will make up the blue prints and detail drawings for your contractor to use. There is no charge for this special plan service if the building materials are purchased from our lumber yard.

Visit our office and get your copy of the NEW BOOK OF HOME PLANS.

Monthly Record Made by Oakland-Pontiac School

Pontiac, Mich., May 27—After breaking all previous monthly records for manufacture and shipment of cars during March, the Oakland Motor Car Company again smashed this record with deliveries to dealers during April at 13,158 Oakland and Pontiac Six automobiles. The March shipments totaled 12,019 cars.

During the two months of March and April alone the factory produced and shipped as many cars as during the first eight and one half months of 1925. For the first four months of this year a total of 39,305 cars has been shipped to dealers.

Not only have sales of the Pontiac Six been breaking all previous records for the first four months' production of new make of car, but the Oakland Six has likewise been practically doubling in sales. Through April this year shipments of Oakland Six from the factory have been 95% greater than for the four corresponding months last year.

Foreign shipments of the Pontiac Six began during April, while foreign shipments of the Oakland Six are running approximately 400 cars per month. Though production on the Pontiac Six has been averaging 800 cars per day, the Oakland factory has not yet caught up with the dealers' orders for this new car.

HUPP CO. ADDS COUPE TO 6-CYLINDER LINE

A new two-passenger coupe for its rapidly selling six cylinder line of cars, with rumble seat for two additional passengers, is announced by the Hupp Motor Car Corporation. It lists at \$1385 at the factory. The car is already in production. Shipments to distributors and dealers are now being made.

In line with prevailing styles the coupe is finished in two color tones of genuine Duco. Body is of a rich shade of Ocean green with superstructure in black. A double head with gold stripe at the body moulding accentuates the sweeping and pleasing curves of the body lines. Wood wheels are standard, with steel ones of lighter green, harmonizing with the body colors. The interior Standard upholstery is hand crushed genuine Spanish leather. Platinum velour is optional.

The car is built with an exceptionally comfortable and wide seat in recognition of its all-around suitability as a salesman's car for long distance driving. It is designed, also, to carry three passengers inside when that is preferable. The seat is 47 inches wide, and is painstakingly constructed for contour, upholstering and cushioning. A rumble seat is unusual in several respects—its accessibility, comfort, 36-inch width and the ease with which the cushions may be removed entirely to make the rear deck available for suit cases, bags or bulky packages. Two aluminum steps are provided to facilitate easy entrance and exit.

Behind the interior seat and running practically the entire width of the car is a compartment for tools, packages and shoppers' bundles. The rear window may be fully lowered by regulator when desired. A golf compartment, with lock, is also built into the rear compartment, opening at the right side.

Equipment of the new models includes four wheel brakes, gasoline gauge on dash, patent vision-ventilating one-piece windshield with automatic cleaner, rear view mirror, snubbers, rear signal light and balloon tires. Chassis features also include automatic control of engine heat, patented vibration damper, gasoline filter and purulator oil filter.

Decision to produce the car follows the large sales of the 2-4 passenger coup in the Hupmobile Eight line. Demand from distributors and dealers for this new Six model will necessitate immediate heavy output the company reports, plans for which have already been drawn.

Mr. and Mrs. D. C. Going and family of Highland Park were guests last Sunday at the home of Mr. and Mrs. C. J. Hallock on Ann street.

Chapel of the Holy Name Harmon at Woodland Rev. William W. Ryan, Pastor Sunday Masses at 7:30, 9:30 and 11:30.
