CHRISTMAS SEALS TO BE DELIVERED SOON

County Tuberculosis Association Plans Annual Sale to Begin At Thanksgiving.

About two days before Thanksgiving several thousand residents of Oakland County will receive a letter containing 200 Christmas seals, each bearing the familiar two barred cross of the Michigan Tuberculosis association.

A prompt and cheerful response to the letter will mean that the work of the Oakland County branch of the Michigan Tuberculosis association can be continued for another year. Christmas seals will also be forwarded to the various schools throughout the county where they may be purchased by those who do not receive one of the letters.

These penny seals have provided funds for all of the anti-tuberculosis work that has been done in Michigan and officers of the society say that no purchase of seals is too large or none too small.

In speaking of the work being done with the funds received from the sale of seals each year, Willis M. Brewer, president of the Oakland County branch said, "During the year 16 public health clinics have been held and a total of 325 physical examinations have been made. All of the cases discovered through these examinations have been followed up and wherever possible, corrections have been made. Modern health crusades have been conducted in the schools of the county, and preventative educational work has been carried out.

"People are shocked when they hear of the loss of life caused by a great storm or an earthquake," continued Mr. Brewer. "Yet we have in our midst a disease that takes a greater toll of lives than all the storms and earthquakes. This disease works so quietly and insidiously that it does not attract our attention as do great losses of life at one time and in one location.

"The outstanding fact in connection with this is that the storms and earthquakes cannot be prevented, while this vother thing—Tuberculosis can be prevented.

"The work already done with money raised by the sale of seals proves conclusively that health can be bought. Those who purchase seals are buying stock in this great movement for it is really an investment in the most precious thing in the world—an investment in health."

Mrs. Zelpha B. Hale announced seals may be obtained direct from her office, 49½ north Saginaw street Pontiac.

Music To Be Taught By New Method

The Birmingham Studio of the Detroit Institute of Musical Art is introducing the new Dunning System of musical instruction at their building on West Maple avenue here and will begin Nov. 22, under the direction of Miss Flora Min Minchin.

The Dunning system aims to teach beginners in music by means of symbols the fundamentals of music.

"The ear is acquainted with musical tones by aural exercises, mental drills are employed to awaken musical thoughts the eye is trained to read musical notation quickly and correctly, and the sense of rhythm is stimulated and developed by rhythmic exercises and songs," Lawrence LeDuc, one of the instructors at the Institute, explained.

Mrs. Carre L. Dunning, of Buf, falo, N. Y., a musician and teacher, originated the system. "It trains the mind to think musically and consecutively", she has said, "cultivating the three greatest factors in a successful life—concentration, application and dispatch."

Miss Evelyn Amesbury, aged 33, of Bristol, Eng., who has been convicted fifty-seven times, has been sent up for ten months as an "incorhigible rogue."

Every Kiss Said To Be Capable Of Transfering 40,000 Germs

Even in these days, when men are so much accustomed to prohibitory laws, the decree "Thou shalt not kiss!" would seem intolerable. Yet the Anti-Kissing League in Paris is seeking to impose it.

Why, demands this league, does the kiss play so great a part in our lives? There are some highly developed peoples among whom it is not employed. For example, the Japanese, civilized as they are, adaptable and desirous of acquiring all that is good from the manners and customs of other nations, show no inclination to learn the art of kissing. Indeed, moving picture films of American or European origin that contain kissing scenes are edited for Japanese consumption.

The Anti-Kissing League urges that this habit be abandoned. Twentieth century people should be less romantic and more rational. For there is danger in the kiss. In every kiss, it is contended, there lurks the possibility of transferring no fewer than 40,000 disease germs—perhaps many more. This fact the Anti-Kissing League emphasis, arguing that if every person before kissing would pause for a moment and consider the possible consequences of a transfer of 40,000 disease germs, the practice would gradually die out.
