An Acre of Dirty Dishes Washed In Your Home Every Year!

Notice the quantity of your dirty dinner dishes, then multiply it by the number of meals served every year...

Isn't it lukewarm water for cold, greasy dishes that puts the drudgery into this dishwashing? Isn't it the bother of putting water on to heat or going down stairs to light the heater...

LOW COST HOT WATER - that means Consumers Water Heater

Dishwashing at the best is bad enough so why make it worse? Why not have sizzling hot water on tap at all times?

That's the new, easier way to wash dishes.
