

NEW AUTO MERGER TO COMPETE G. M. C. SEEN

Consolidation Report Links New of W. C. Durant's Plans Are Increasing.

Men well informed in the motor car industry are looking forward to another combination of large interests, which, while not unexpected, in view of the General Motors Corporation, will give certain manufacturers a better opportunity to compete with the phenomenal strides being made by that organization.

There have been many rumors of combinations in the past, but there is reason to believe that actual steps in that direction are now being taken. In the background, as might be expected, observers believe they can distinguish the figure of W. C. Durant.

If Durant has in mind anything along that line he has a considerable Locomobile, Flint and Star cars. The plan now believed to be under consideration is that of the formation of a new organization to take line-up of one organization of major importance in the industry and another plant which a few years ago was in difficulties and is now out of debt and making money under the direction of a former Durant lieutenant.

The organization of another combination along the lines of the General Motors has long been considered a logical development in the industry. The talent of Durant for this sort of thing is conceded. And there are well informed sources who expect to see him exercise it again.

No, Sir! Positively Not My Baby

When the Australian says a variety of catch, presented an egg to the egg at Washington, D. C. officials were at a loss to know how to hatch it. First they tried this hen the smaller egg being her own, but she took one look and fled. The egg is in an incubator now.

WILD SCENES STAGED AT CHINESE GOLD MARKETS

The wildest scenes of commotion are to be witnessed on the Chinese exchange at Shanghai where brokers, dealing in gold bars, create more noise and display less regard for the physical and mental being of their patrons than do even the brokers on the New York Stock Exchange, the New York Curb or the Chicago Board of Trade, according to Geraldine Sartin, special correspondent to the Honolulu Star-Bulletin. There are 100 brokers on the gold bar exchange and these participate in a continuous scramble for positions around a table where the dealings are carried on.

Takes 18 Years For Letter To Go Mile

Speed in postal deliveries has kept pace with speed in everything else connected with our general mode of living. A letter mailed in New York today, through the medium of the speedy air mail service will be delivered in San Francisco tomorrow evening. A letter received a few days ago at the New York Branch of the B. F. Goodrich Rubber Co. offers great contrast to such speed for a letter was posted 18 years ago at a point less than a mile distant from the present location of the branch office.

The 18 years, however, were not consumed in travel for the letter got in the mail chute in the Mills Building and there it remained until wreckers, engaged in the task of tearing the building down, tore apart the chute and found it.

When the letter was opened another surprise came to the young members of the branch office for it contained a check drawn for the amount of \$25.20 to cover the retail price of two iron tubes.

The same tubes today would cost not more than \$10.
