# Are You Ready For Easter Sunday

and the Spring  
with its new styles  
and modes of warm  
weather clothing?

# Who Drives Your Car?

ONE of the excellent advantages of automobile liability insurance, as written by the good sound stock companies, represented by us, is the fact that the policy protects the owner of the car no matter whether he is driving it himself or someone else who may be driving it with his permission. Therefore, when the wife or son or daughter of the family is driving, as is often the case, the owner has a comfortable feeling of security against claims for damages should an unforeseen casualty occur.

You see more and more inexperienced, youthful drivers on the streets; do their fathers realize their great responsibility to the public? Are they awake to the increasing number of traffic fatalities? Are they ready to hand out \$5,000.00 — \$10,000.00 — \$20,000.00 damages should a bad accident result?

April is automobile insurance month—the time for sober thought on this matter—the time for action. Inquire here, we will gladly
