BALDWIN LOSES IN ROUGH GAME

day in a closely contested contest, which ended with a score of 11-8. Slack refereeing and not the opposing team's ability was the cause for Birmingham's loss, according to supporters of the team.

Decidedly rough football-like tactics which were not stopped by the referee were prevalent throughout the game. In spite of this the Maroon and White captans were able to hold their own and continue to progress by clean playing until the last quarter when circumstances allowed the local team a three point margin. The Baldwinites put up a splendid fight.

Scoring was practically impossible, nearly all the points were

and a double foul availed nothing for either side. Peterson's throw hung decidedly on the edge and dropped outside the basket. Nickelson completed the Grosse Pointe scrapping with a point on a free throw. The results of the rough and tumble started by the home team was 11-8.

The first period opened by unsuccessful attempts on the part of both teams at the basket. Gaffill was the first to score on a shot from under the basket. Thomson scored one point on a free throw at this time and Grosse Pointe failed on several shots at the backboard. The game made little headway at this point and many efforts to score by both sides were of no avail. Nickelson of the home team made good with a point on a free throw as the quarter ended. The score was 2-2.

Many attempts were made by both teams to score in the second quarter but all failed. Jump ball and outside was scored on almost every play because of rough scrambling by running with the ball. A foul was scored against Thomson but Grosse Pointe failed to make good. Brown missed on a free throw but Strub was able to toss the ball from the foul line for a point when he received an opportunity.

Birmingham in possession of the ball missed an attempt at the basket and Strub again failed on a foul shot, however, he compensated on this by making good on the next chance with one point. Try by Grosse Pointe failed to score but a fumble in which Peterson seized the ball and made good shot brought the score to 4-4 at the half.

Unsuccessful tries were made by both teams in the third period, however, both Brown and Sanderson added a point to the score on a double foul. Gaffill narrowly missed a shot and soon after Thomson scored for compensating four fouls. Sanderson threw the ball down and Brown attempted a long shot which largely missed and Peterson of Birmingham made good on a free throw, bringing the score to 6-6 as the quarter ended.

Rifior opened the fourth period by scoring a field goal for Grosse Pointe. Brown failed to score on a long shot. Rifior again made good on a field goal and Birmingham took time out. Strub failed on a free throw and Grosse Pointe missed several shots. Strub again missed this time on a shot. The game was tense at this time and the Maroon and White were putting the utmost in a fight to win. After passing the ball down the floor Brown made an attempt for Birmingham and missed, however, Peterson seized the ball and tossed it in. Brown made several unsuccessful attempts which failed,

STAFF MEMBERS GIVEN AWARDS

Williams and Higby Honored For Semester's School Page Work

Two members of the school page staff of The Eccentric have been awarded prizes for their excellent work during the first semester of the school year and today the staff responsible for the news appearing on this page is being reorganized under the direction of Miss Beulah Packard, instructor in the first class of journalism in the history of Birmingham school. The class was begun this semester.

Both students who have been given the awards are upperclassmen of the Baldwin High School. They are Frank Higby, a senior, who was student editor and George Williams, a junior, active in general assignment work.

The two were selected by Melvin C. Hart, principal of the high school, Mrs. Aris Horwath, faculty staff advisor, and editors of The Eccentric. While many other students distinguished themselves by clever work during the year it was felt by the judges the two selected had devoted more time and effort toward presenting events of the village schools, with particular reference to the high school, and had shown a decided improvement in their work during the semester progressed. The judges were unanimous in their selections.

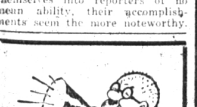

Many other student members of the staff did conscientious work, however, and editors of The Eccentric, as well as readers of the paper, keenly appreciate their effort. Among the more prominent are: Cornelia Schorr, Rosamond Manchester, Loren M. Williams, Mary Lamond, Fred Whittlesey, Hilda Trumbull, Maxine Jewell, and Helen Rayson.

When it is remembered the students began their work of news gathering early in the semester, without special knowledge in the fundamentals of journalism, and through hard work developed themselves into reporters of men ability, their accomplishments seem the more noteworthy.
