National Party To Force Amendment, Says Miss Whittemore

While the deputation from the National Woman's Party was visiting President Coolidge at the summer White house in the Black Hills last Friday, the Michigan branch of the party, which includes several Birmingham members, along with the other state branches was sending telegrams to the President asking him to use his power to secure the passage of the equal rights amendment...

Mr. Halgren Praised

"I am glad that we have Mrs. Halgren on the village commission here in Birmingham as an opening wedge toward the ultimate partnership of men and women in the administration of village affairs," said Miss Whittemore. "There are many things that a woman of the right type will be interested in and be able to do for the community which would not ordinarily occur to a man. The cooperation of men and women will produce better results than either working alone."

ST. SWITHIN'S POWER WANES

Old Saint Fails To Keep Promise And Sun Shines

"St. Swithin's for the most part for forty days it will remain. St. Swithin's day if thou be fair for forty days 'twill rain no more." So when it rained on Friday, July 15, the credulous and those who are willing to admit to a certain amount of superstition prepared for a long dreary 40 days of wet weather. It seems that St. Swithin's bidding has waned somewhat since that day was back in 971 when it is recorded that the good saint, spirit wrathfully caused it to rain for 40 days, to show his wrath to the people who had ignored his wishes.

Minutes of Special Meeting held on June 29, 1927, read and approved.

buried in Ethelwood's new basilica on July 15, rain began to fall and fell for 40 days. This was taken as evidence of the saint's displeasure and the tradition that if it rains on July 15 it will continue to rain for the 40 day period became fastened in people's minds.

However, in spite of all this, there are no authentic weather records to show that such a thing has ever occurred. This year again, with sunny days immediately following the heavy downpour last Friday, it looks as though the tradition, though a nice enough thing as a tradition, must be allowed to go its way and annual preparations for a second flood would be unnecessary.
