Short-Eared Owl Is Shown As Destroyer
(Concluded from Page 1, Part 2) The owl is not only a destroyer of insects but also a destroyer of the eggs of many insects. It is a very common bird in the fields and woods of the county.

Birds On Ground
The short-eared owl is a bird which does not fly in the air. It is a very common bird in the fields and woods of the county. It is a very common bird in the fields and woods of the county.

3 Foot Wing Spread
The short-eared owl is 17 inches in length and three feet in width. It is a very common bird in the fields and woods of the county. It is a very common bird in the fields and woods of the county.

Biggest Cooking Top Big Oven
Biggest Cooking Top Big Oven. This range fits in small space. It is a very common bird in the fields and woods of the county.

to the short-eared owl at this time because of his good habits and because he has been so busy with the farmer in the past. His habit of flying in groups sometimes causes whole owl families to be destroyed at once, and this is the time of year when the young begin to fly about the meadows in search of food for themselves. I hope farmers and others will be careful not to destroy the valuable bird.

STREET WORK PROGRESSING

(Concluded from Page 1, Part 2) The work on the streets is progressing rapidly. The city engineers are doing a fine job of the work, and the streets will be in good shape in a few days.

Keep a MOTION PICTURE diary of Your Children

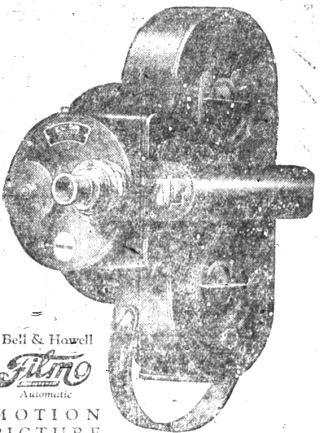

Film movies are so easy to take and show that any home with children and without films is missing the greatest pleasure of the century. Next year will be too late to catch the expressions and mannerisms of today.

WE challenge any mother or father to remember the children exactly as they were a few years, or even a few months, ago. Time is changing them under your very eyes, making you believe they are the same each day.

A Film motion picture is the exact picture diary you want. No posed expressions. Catch them at play—anywhere, any time. Every move and gesture faithfully recorded in movies.

Easier than snapshots to take with Film camera. Simply look through the spy-glass viewfinder, press the button, and what you see you get. Your movies are just as easy to show with Film Automatic Projector. And to your own movies you may add a choice of Films from the Film Library. A complete movie show at home.

Bell & Howell Film Automatic Projector
MOTION PICTURE CAMERA

We handle developing of your movie films without extra charge. Ask us about it. See our complete line of movie accessories. Everything to give your movies the variety and beauty of those seen at the best theatres.
