THE demand from car owners for Gum-Dipped Tires has given Firestone Dealers a large increase in volume enabling them to sell these tires to you at the lowest prices in history.

On the cars of motorists everywhere, these wonderful tires are delivering unheard-of long mileage with greater safety and comfort.

The Firestone Balloon Tread, scientifically designed three years ago, and unhanged today, follows the contour of the tire carcass with no excess rubber at the deges to cause "shoulder breaks". Narrow rider strips permit the tread to yield to depressions and cling to the road, preventing skidding. This tough, pliable tread has the wear resisting qualities for thousands of extra miles.

Such a tread must be placed on a carcass with the qualifications to withstand the terrific flex-ing that this design permits. The Firestone carcass is made of cords dipped in a rubber solution which not only saturates and insulates every fiber of every cord, but unifies sidewalls with carcass, avoiding separation under the extreme flexing.

Many Firestone Dealers are prepared to offer you a liberal allowance for your old tires, on a new set of Gum-Dipped Tires to start the motoring season.

To meet a demand for a low price tire and tube, Firestone designed and manufactures, for Fire-stone Dealers only, Oldfield Tires and Tubes, which carry the Standard Manufacturers' Guarantee.
