# MAN OWNS

# 2 Supreme- & FOUR years ago Packard introduced the finest car itsunequaledexperience could design. AMONG THE WORLD'S FINE CARE

ence could design PACKARD EIGHT HAS NO EQUAL TODAY and its unsurpassed facilities could construct — the Packard Eight.

Packard had planned for years Packard had planned for years to make the Packard Eight truly the world's greatest motor car—greatest in power, in beauty, in comfort, in fine-ness of construction and last-ing excellence of performance.

Now after four years Packard knows it has succeeded in designing and building the great-

est car in the world. Packard has purchased each of the most outstanding cars of Europe and outstanding ears of Europe and America. Impartially Packard has tested each of these in com-petition with the Packard Eight —on the track, on the road, in the laboratory. The Packard Eight stands supreme.

You cannot make such tests as Packard has made—they take months and cost fortunes. But there is one test you can make.

Take a Packard Eight and drive it where you will—all day if you wish—without obligation.

And compare it with your present car or the car you are considering—any car. We know the Packard Eight will win.

Here is another test. Ask any Packard Eight owner! We will be glad to give you a list of them. They are our most enthusiastic salesmen.

We are fortunate in being able to make prompt deliveries at this time.
