Is Gas House-heating Expensive?

With ordinary make-shift burners—YES.
With the Roberts Gas Burner, designed by a former gas and house-heating engineer—NO.

The cost of operation ranges from that of coal up to 20 or 30% more per season

In fact so satisfactory and reliable have the Roberts Gas Burners been proven, that never has a buyer requested its removal. This even includes towns where the gas rate is higher than Birmingham's.

Installed in your furnace, the Roberts Gas Burner, needs no attention other than to light the pilot in the fall and turn it off in the spring. You are assured of an even temperature at all times.

Sold on a ninety-day trial!
