News Of Baldwin H. S. And Other Schools

RICHMOND WIN BY 20-6 SCORE

By GEORGE G. WILLIAMS. Football warriors established against the second statement started the game Friday at Richmond, to conserve the strength of the regulars for the Royal Oak coming tomorrow.

Accepting the Richmond plunge, the Redskins appeared to have purely an off-day and a decided lead in the final quarter play was not a certainty. Football by the wide substitute team was started in the game by Cecil Gorman.

Football Team Has 2 Captains, Reporter Finds. Something new in football has been observed in Birmingham. In the game between Cranbrook School's third team and Lynch's second team, two captains were named.

STUDENT LOAN TO GIVE MOVIE. "Hobnob 30-cent" a Paramount picture will be presented in the Baldwin High School auditorium Friday evening.

GIRL SCOUTS NAME REPRESENTATIVE. Girl Scouts Troop 1, of the Beech school, held its regular meeting in the school Monday.

The Wherefore of Thanksgiving. Three centuries ago the Pilgrim Fathers, standing on a bleak and rocky Massachusetts headland, lifted up their voices in thanks.

STUDEBAKER THE GREAT INDEPENDENT

NEW WORLD RECORDS For Endurance and Speed established by 3 STUDEBAKER COMMANDERS THE WORLD'S CHAMPION CAR

Nothing made by man in the history of the world has ever traveled so far so fast—25,000 miles in less than 23,000 minutes. Read the facts below

TO THE PUBLIC: South Bend, Indiana, November 10th, 1927. On October 18th at 2:49 p. m., two strictly stock Studebaker Commanders, Sport Roadsters, started at the Atlantic City Speedway (one and one-half mile track) to run continuously for 25,000 miles and thereby, if successful, to establish a new world record for endurance, and also, if possible, to average better than a mile a minute and thus break all existing speed records not already held by Studebaker cars. These were the objectives sought by Studebaker.

This run was sanctioned and supervised by the American Automobile Association, which stationed a squad of 35 men on the job in charge of Val Harsanyi, Secretary of the Contest Board of the Association. These men kept the cars in the best of repair by means of the most accurate electrical timing instruments and tape which registered every lap (16.667 miles) as they crossed the finish line stretch across the track immediately in front of the judges' stand, which was occupied by four A. A. Technic I Committee kept an accurate record of all oil and water replenishments, together with parts replacements and work done on the cars.

The sedan turned over during the night of November 2nd with a mileage of 21,390 miles to its credit, while going at the rate of 65 miles per hour. It was necessary to replace radiator, wheels, headlights and front axle, but the car was back on the track again in one hour and fifty-seven minutes and completed the 25,000 miles with an average speed of 65.31 miles per hour. The repair cost was, of course, made abnormally heavy on the sedan by this wreck—totaling \$408.34 or one and sixty-three hundredths of a cent per mile for the 50,000 mile world record.

Competitive engineering and proving ground tests, plus analytical examinations of a hundred cars made during the past year, had convinced the men who make Studebaker cars, that they are superior in performance, endurance, and value to any other cars on the American market today. Realizing the futility of advertising claims, so prevalent in automobile literature, Studebaker determined seven months ago to go after all existing performance records held by stock automobiles and to submit the results to the public as official facts certified to by the American Automobile Authority, namely the American Automobile Association.
