## HOUSEHOLD HINTS

**MENU HINT**  
One of the delights of cooking is trying experiments. Of course disasters occur. Not all experiments turn out successfully, but there is always a lesson in trying something new and even women who have kept house for years and years enjoy doing this. The salmon croquettes in the following menu were an experiment and the housewife who thought of using them was pleased with the results.

**Salmon Croquettes**—Mashed Potatoes  
Cabbage Salad Cheese Cake Coffee

**Today's Recipes**  
**Salmon Croquettes**—One can salmon, one egg, slightly beaten, one scant cup milk, two cups corn-flakes, season with salt and pepper to taste. Cook in hot fat until a golden brown.

**Cheese Cake**—Two cups cottage cheese, three eggs, two tablespoons butter, two tablespoons cream, one cup sugar, grated rind one lemon, one tablespoon corn-starch, pie crust. Cream the butter and sugar thoroughly together, add the eggs well beaten separately, then the cottage cheese, lemon rind, cornstarch and cream. Beat thoroughly and bake in one large pie plate lined with crust, or in individual tartlet pans. If baked in one large pan, bake from 45 to 45 minutes; if in individual pans, from 12 to 15 minutes, having the oven moderately hot, 350 to 375 degrees Fahrenheit.

**To Lard**—To introduce into lean meat, long, narrow strips of fat (salt pork or bacon).

**Suggestions Use the Lid**  
If you are carrying a cake to a picnic or a church supper, use the lid of the box for the cake and the box itself for the lid, and you will have no difficulty in removing the cake from the box.

**Apple Butter Sauce**  
Cut in thin slices, shavings, two medium-sized tart apples, add two cups of water, half cup of granulated sugar and one tablespoon butter. Let come to a boil, then thicken with one tablespoon applesauce.

Keep boiling until apples become transparent. This sauce is delicious served with cottage pudding, deep apple pie, or apple dumplings.

**Maple Cream**  
Dissolve one-half package gelatin in cold water. Pour over it, before serving.

## VICTORIAN ERA BRINGS VOGUE OF CRINOLINE

With the beginning of the Victorian era came the crinoline. Skirts were fully gathered at the waist line, usually without trimming. They touched the ground and were worn over several starched, cambric petticoats or an underskirt of stiff crinoline. Waistlines were pulled in and whaleboned. The wire hoop was first introduced in 1851, becoming universal in 1858. A superabundance of ornamentation is seen on the dresses of this period and hand-made lace was the rage. With the Civil war came the end of the hoop.

## AUTUMN IN THE GARDEN

Every garden has some pivotal point of interest which attracts the visitor. Luckily the owner who makes this point a sun dial, set to advantage and surrounded by flowers of soft coloring.

The inscriptions for the dial are generally taken from old ones, but in modern gardens we find old dials with new ideas, as if were a concession to the time in which we live. "My Place is in the Sun; Find Yours" of Tell Time in Sunlight; You Must Carry It at Night; The setting of the dial may be expensive if the garden is a formal one.

## Some Don'ts

You will get more satisfactory service from your electric lights if you pay heed to the following suggestions:

**DON'T** give the bulb a hard final twist when screwing it into the socket. This tends to loosen the glass from its brass base and shorten the life of the lamp.

**DON'T** let dust gather on lamp bulbs. It may absorb as much as half the light. Wipe with a soft, dry cloth at least once a week.

**DON'T** use lamps that have become blackened from long use. They waste your light and strain the eye. Return them and get new lamps in their place, free.

**DON'T** use bare lamps. Have a shade of glass, silk or parchment to soften the light and spare the eye.
