

CONTRACTS LET FOR GRAVELING OF CRANBROOK

Work To Be Completed On Highway By Nov. 1, Terms Specify

CURB, GUTTERS NOW IN

Contracts for the graveling of the North Cranbrook road are in the hands of the George Wellington Smith company of Franklin today and work is to be started to completion by Nov. 1, according to a stipulation in the contract.

CAR IS DITCHED AS WIRE FALLS

Driver Receives Slight Injuries In Accident On Big Beaver Road

Henry C. Hollenbeck of Lapeer received cuts and bruises when his car ran into a ditch at the Big Beaver and Adams roads Saturday night when an electric light wire fell in his path.

Cranbrook School To Start Monday

(Continued from Page 1, Part 2) are also hung with attractive pictures. The faculty offices are attractively furnished, one of them containing several excellent Holbein reproductions. The back of the dormitory is flanked by two rows of various-sized juniper trees.

Considerable decorative work is still to be done on several of the buildings. Professor Geza Marotti is designing several pieces to be placed over doorways, fire places, and north of it, some 20 acres of ground have been set aside for any other outdoor sports desired.

REALTORS PLAN JACKSON TRIP

Plans are being made today by four local realtors to attend the annual convention of the National Real Estate Association at Jackson next Wednesday, Thursday and Friday.

Mitchell Recalls Whitehead And Other Pioneers

(Continued from Page 1, Part 2) and Connie Ryan leading the crowd. The leaders of Birmingham then were Samuel N. Hill, first president of our village and Probationary minister for many years.

NEW, FREE BOOKS AWAIT STUDENTS ON RETURN TO VILLAGE SCHOOLS

Going back to school this year turned out to be almost like going to a Christmas party for the students. Every boy and girl received a set of half a dozen or so brand new books, with a slip in front on which to put his or her name, assuring private ownership.

The free text book system being instituted this fall was a new thrill for the students. When they brought their own books, they seldom bought all new books at one time. Some would be new, but there would be a speller or an arithmetic here and there with every old one they had left over, received them, and the feeling of something to open carefully the first time from the back and the backs, something to put a paper cover on to protect it from the dust, brought a new interest to the first days of getting back into the "harness."

Beyond the school building are the football field and tennis courts, and north of it, some 20 acres of ground have been set aside for any other outdoor sports desired. Housing in the summertime tobogganing and skating and hockey in the winter, all are provided for.

"The boys will begin their outdoor sports the first day of school, even though the gymnasium is not quite ready," Dr. William O. Stevens, head master, explained. "We expect to have the gymnasium ready by Oct. 15, and until that time the boys can use their football fields and the backers there." Dr. Stevens is a former instructor at Annapolis Naval Academy, and for several years was head master at the Roger Asham School at White Plains, N. Y.

Athletics Encouraged

The faculty of Cranbrook has been chosen with a desire to continue the athletics of the academy. "All of our teachers are athletes," Dr. Stevens said. "Although Herbert Snyder is athletic director, he is also an instructor of history and German. We want co-operation between the athletic and academic departments rather than the antagonism which is sometimes found. By having teachers who are all athletes as well as scholars, we think we can get this co-operation. Athletics also tend to a friendlier relation between student and instructor, something which we are very anxious to foster."

Dr. Stevens' faculty includes Arthur Kiernan, business manager and instructor in mathematics, a graduate of Brown University and former instructor at Annapolis Naval Academy; Charles J. Keppel, dean of boys and science instructor, and George J. Nickerson, English teacher, both from St. Paul's; Mr. Snyder, former headmaster of the Valley Ranch School in Wyoming; Howard E. Yule, Latin and French teacher, graduate of Hamilton College; John M. Harlow, French teacher and dormitory supervisor, from Storm King School; and C. Warren Moore, in charge of the arts and crafts, who has taught at the Riverside School in New York. Miss Margaret Frazer is librarian, Miss Pearl Peterson, former clerk to Superintendent Clarence M. Vliet, of Birmingham Schools, is financial secretary, and Miss Gertrude Eastling is executive secretary.

The Rev. Dr. S. S. Marquis, rector of Christ Church, Cranbrook, will have charge of the Bible study and religious work. No entrance examinations will be required by boys entering Cranbrook this fall, Dr. Stevens said, although it is probable that beginning next year, they will be required. This year the boys' records from their former schools are sufficient if they meet the other requirements.

19 Day Students

The boys, from 11 to 17 years of age, will enter one of three forms, corresponding to the seventh, eighth and ninth grades. Next year another form will be added and so on until the full 12 grades covered for college preparation shall have been installed, Dr. Stevens explained.

The 69 boys already registered include beds from Detroit, Grosse Pointe, Ann Arbor and Mt. Clemens, as well as from Birmingham and Bloomfield Hills. Ninety-four of these 69 students will be day students, returning to their own homes at night. The others will live there the whole school year.

TO HOLDERS OF SECOND LIBERTY LOAN 4 PER CENT BONDS

EXCHANGE OFFERING OF NEW TREASURY NOTES

Second Liberty Loan bonds have been sold by payment on November 15th next, and no interest will be paid on these bonds.

Notice is given of a new offering of United States Treasury Securities in the form of Second Liberty Loan (Converted) 4 1/2 per cent bonds. The new bonds will be dated September 15, 1927, and will bear interest from that date at the rate of 4 1/2 per cent. The term will mature five years later. The bonds will mature after three years.

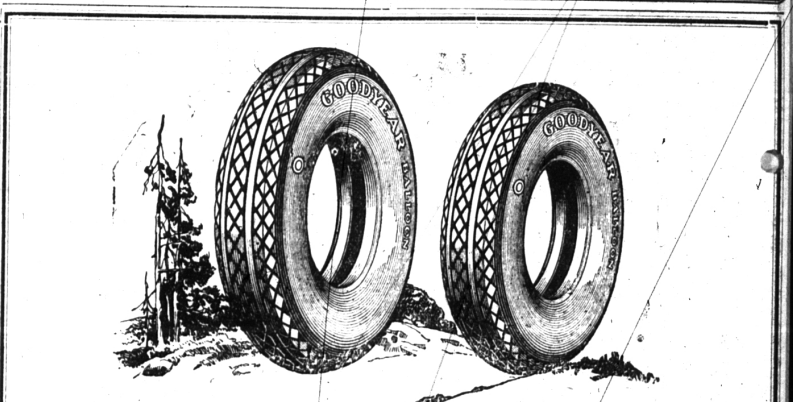

Interest on Second Liberty Loan (Converted) 4 1/2 per cent bonds surrendered and accepted in exchange will be paid to November 15, 1927. The proceeds from the new issue of 1927, 4 1/2 per cent bonds will be used to pay the interest on the bonds surrendered.

At the time of delivery of the new notes, interest on such Second Liberty Loan (Converted) 4 1/2 per cent bonds from May 15, 1927, to November 15, 1927, less the proceeds on the new issue, will be paid to the holder.

Holders of Second Liberty Loan (Converted) 4 1/2 per cent bonds who desire to take advantage of this opportunity to obtain Treasury notes of the new issue, should arrange with their banks or the office will remain open until a limited number of bonds are available.

Further information may be obtained from any local post office, or from any of the local Reserve Banks.

A. W. MELLON,
Secretary of the Treasury,
Washington, D. C., September 6, 1927.

Why not have the best for your car?

Goodyears cost no more than ordinary tires

Just look at it: see the big, deep-cut, diamond-shaped blocks in the tread's center, put there for traction and safety.

In any usage it wears evenly and slowly without "cupping" or "pot holes," and at any given distance shows less obliteration of the non-skid design than is the case with earlier types.

Note the two heavy circumferential ribs at the points of greatest bearing, built into the tread to insure long, slow, even wear.

You will want the improved Goodyear balloon tire with the new-type All-Weather Tread as today's foremost example of good tire-making. It is the latest of many sound reasons why "more people ride on Goodyear Tires than on any other kind."

These important features, together with the flatter design, give this smooth and quiet-running tread vastly improved traction and a greater mileage.
