## Refreshing

Sing a song of sixpence  
A pocketful of rye;  
Four and twenty blackbirds  
Baked in a pie.

When the pie was opened  
The birds began to sing  
Wasn't that a dainty dish  
To set before the king?

HOW refreshing it is to hear an old nursery rhyme now and then.

A visit to La Belle's will furnish refreshments in a similar way. So many things to be found here which are simple and beautiful and which make homes so home. Here you can refresh yourself mentally.

### Under The Hood

ONCE A YEAR, AT LEAST

Back in the days when motor cars were thought in terms of maintenance, the driver would give it a thorough washing with soap and hot water was a matter of course. It's different now, but more different than it should be. For this operation is advised at least once a year. The present period is the ideal time for doing it or getting it done. Even with oil filters, the pan and screen ought to be cleaned out.

MUST BE SYNCHRONIZED

It is a mistake to think that even after the car owner has gone to the trouble of cleaning the breaker points, there is a quality of roughness in the engine operation, particularly when idling or accelerating. The chances are that the points are not synchronized. They must be equal-distant and the size of the opening must be exactly the same. The task is one that the service station is best fitted to do, unless the owner is particularly skilled in his own mechanics.

LUGS WILL WORK LOOSE

Those mysterious squeaks and knocks that occur when turning corners or traveling over a rough road very frequently are no more than looseness in the lugs that hold the rims on the wheels. They wear loose and periodic inspection will pay. They permit side to side play of the tire, which wears.
