

Many Responded

In an advertisement in The Birmingham Eccentric of March 8th, attention was called to Detroit business men living in Birmingham regarding the practicability and convenience of using the printing facilities offered by The Eccentric printing organization. Many responses followed this insertion and the interest manifested was very pleasing.

However, there are many others whom we wish to appeal to and we again remind Detroit business men that right here in Birmingham is located a modern and alert job printing organization with facilities that place it as the largest combined printing and publishing organization in Oakland County! No matter what you are in need of along this line, we wish to assure you that our services are always open to your investigation.

Anything from a calling card to a color catalog.
