# GENERAL goes a long way to make friends

If you like an open road, in a car that can travel as fast as you care to drive it, you will enjoy it twice as much on Generals. If you have ever felt your tires at the end of a fast run, you know that speed means heat. By using only the purest friction and tread rubber in generous quantities, General reduces internal friction (the cause of heat in tires) to a minimum. With Generals you can travel far and fast with the comforting knowledge that they won't wither from heat when you need them most.
