

**THE  
FIRST  
NATIONAL  
BANK**

# Phenomenal Growth!

Organized in 1910, The First National Bank of Birmingham has enjoyed a growth that is readily recognized as **HEALTHY**. The capital of \$25,000 of eighteen years ago has been doubled every five years. Total resources now exceed \$3,300,000 as compared with the original \$98,000. And today the surplus and undivided profits are \$220,000! As truly remarkable as the growth and substantiality of Birmingham itself!
