

# THE NORTHEAST SECTION OF BIRMINGHAM

WE point with pride to the healthy and rapid development of the Northeast Section of Birmingham. As pioneers in that section we enjoy the thriving and stalwart progressiveness which characterizes the territory north of East Maple and east of North Woodward avenues. We are not seeking glory . . . but we DO appreciate the confidence of home owners in this part of Birmingham.

## Growth . . .

LESS than two years ago this organization chose Birmingham as a likely community for a salesroom for the Studebaker automobile. The first quarters were just large enough for a salesroom. Today, the growth of Jewell Motors, Inc. reflects an appreciative Birmingham. Recently established in our new quarters, our organization offers a complete sales and service to automobile owners. Storage, repairing, washing, and general attention to mechanical needs make up the service branch. Sales records indicate the advantage of a new and larger display room that our new location affords. Throughout, our growth has been substantial and encouraging. We thank this community.
