

BIRMINGHAM

Detroit's most impressive Suburban section. Famous for its schools, churches, community spirit, proximity to clubs and natural advantages for Suburban Home Life.

REAL ESTATE

The purchaser should be more interested in the location than the land itself. The land only represents so much dirt that may be bought for a few cents per load. The location should represent stability and permanency—both may be secured through our advice.

INSURANCE

Insurance of every kind is available through our office. You will be interested in the extensive service that goes with each policy entered. A prompt adjustment has always characterized our dealings — and always will. Haven't you much to gain by placing your insurance with a reputable organization? When you think of insurance—think of us.

Confusion when purchasing may be avoided by consulting us.
