Phenomenal Growth!

Organized in 1910, The First National Bank of Birmingham has enjoyed a growth that is readily recognized as HEALTHY. The capital of $25,000 of eighteen years ago has been doubled every five years. Total resources now exceed $3,300,000 as compared with the original $98,000. And today the surplus and undivided profits are $220,000! As truly remarkable as the growth and substantiality of Birmingham itself!

1910
