"The strength of a nation especially of a republic, is in the intelligent and well-ordered homes of the people." — Mrs. Sigourney

If you are thinking of building a home of your own... that is a fine undertaking. But when you have selected a site and a design, it is time to think about the materials that will go into it. And you will want to choose materials that are not only durable and attractive, but also economical. You want something that will last, yet not be out of reach of the average person. This is where the Studebaker Champion Car comes in.
