DEVOE LAQUER
The Fire-fiend whispers:—
"Put off taking out Insurance"

How many times a year does Common Sense say to you: "Better take out insurance on your house or your car. There is no telling when fire or accidents will devote." And then, for some reason or other it is forgotten. You say to yourself, a little carelessly: "Oh well, we're careful. Nothing will ever happen to us."

Fire, in the meanwhile, does a little whispering on its own account. Being naturally greedy, it agrees with诱导 whispers: "Oh well, that's the thing."

The moment is absolutely impossible to grow older in a given manner of this kind. Fire insurance—just as true of Life insurance—is one of the essentials of modern life. You can't do without it. Moreover, you owe it to your community as well as to yourself and your family.

VICTORY 6 SEDANS DIVIDEND SEAT

Production of a limited quantity of Victory 6 sedans, both in late and standard models, with limited adjustable front seats, has been announced by Detroit automobile makers. When some are available, they will be on sale to the public.

Adjustments can be made quickly and easily by means of a control under the seat. These accommodations include an armrest and storage compartment in the front seat.

The car's easy-to-use folding seat adjustment can be taken out with the integral armrest and storage compartment off the seat. The control is on the seat and the compartment can be taken out with the armrest. The compartment can be taken out with the armrest. The adjustable front seat can be dropped down and up easily without making any adjustments.

The seat can also be adjusted while the armrest is in place. A control is on the door to release the armrest, and a control is on the seat to release the adjustable front seat.
