# PROTEST

## Citizens of Birmingham:—

**Are we** going to continue to allow the wanton destruction of the beauty of Birmingham as evidenced by the **chopping down of the trees on the four sides of OUR new municipal building this week?**

**Are we** going to allow the village commission to violate public opinion as expressed in a resolution to save **our** trees which was presented to the commission on September 10th with **more than fifteen hundred names?**

**Are we** willing to continue to be represented by officials who ruthlessly disregard our wishes?

***This protest is sponsored and paid for by the undersigned:***
