Valet AutoStrop Razor demonstrates the necessity of stropping before each

Because it solves the problem of men with stub-born beards, the new Valet AutoStrop Razor is taxing our factories' capacity to meet America's demand.

Everywhere wise men are turning to the new Valet AutoStrop Razor because it is teaching them the vital importance of never shaving with a blade that has not been properly stropped.

All barbers know that intil it is stropped the cut-ting edge of every blade is a row of tiny needle points that scrape and tear the skin. Stropping smooths them out.

smooths them out.
With the automatic self-stropping device of the
Valet AutoStrop Rator you can do this in a few
seconds. And the new model offers you many other
modern features exclusive in this rator. It is the
result of 21 years of experiment and the expenditure of a million dollars.

Both the razor and the blades have been distinctly bettered. Made of the costliest steel, treated by the exclusive Valettie process. Valet blades have a perfect edge. The self-stropping feature keeps them so, New type guard gives you full use of the shaving surface of these keener blades. Instantly inserted or removed by pressing a button. Licked in a firm non-flexible grip, they put blade wibration and razor pull out of the picture for good. No need to remove the blade to strop and clean it.

Try this new Million Dollar Razor. You'll quickly learn to like it. And once you know its soothing shaves and friendly angle, you'll stick to it for life.
