When it comes to dollar value Plymouth is really the lowest priced.

You discover that, dollar-for-dollar, the new Plymouth gives you more than any other motor car in the lowest-priced group. No other car of its class gives you such as style and full size.

No other car can approach it in speed, acceleration and smoothness.

No other car gives you the assuring safety of internal-expanding hydraulic 4-wheel brakes, equipment you get only in other cars costing far more.

You must come to the inevitable conclusion that in point of dollar value the Plymouth is actually the lowest-priced car in the entire automobile field.
