Many New  
Features  
and  
Conveniences

Finish as shown in snowy white body—enameled outside with easily cleaned oven linings, furnished in either left or right hand oven.

Will repay its cost many times in perfect baking—less work and cooking cost.

Has unusually spacious cooking top with fast heating burners.

Has large, patented five side air walled oven, which bottles its heat and so scientifically circulates it that you can even bake the finest cakes with the oven door wide open.

LIKE ALL DETROIT JEWELS, it affords a cool kitchen with its heat resisting insulation, and tests will prove that it not even scorches newspaper if wrapped around the entire stove.

It's a genuine Detroit Jewel that has served six million families so well.
