Misener will provide the swing frames.

Lanchere's Are Best!

Hot weather appetites sometimes won't be tempted, but if you have your meals at the Pure Food Restaurant you won't have to. You'll feel a pang of hunger when meal time comes round. On their menu you'll always find tempting delicacies, but weather foods that will arouse the most jaded appetite—delicious desserts, delicate sandwiches and cooling drinks. Stop in there to-day for your meals, and for a bite between times.

At the end of a long day there is probably nothing more soothing than a good soap and water wash. And it will be doubly refreshing if you use Lanchere soaps from Shain's Drug Store on West Maple Avenue. There are cheaper soaps but these are so lasting, fragrant and to the last this water with bubbles of velvety lather—lasting because it is hard mill—does not actually a costly soap. And after all, if you do pay a little more, is not a fresh healthy, silken skin fully worth the added cost?

Make Florida Come to You

If you think of fleeing South to escape the heating nuisance, it will be easier to install American Radiator Heating Equipment. Perfect warmth in every room, with no bother at all.

Liberal Allowances on your old heater
Easy Payments • Less than \$75 a Room

We would like to tell you how cheaply and conveniently you can purchase this comfort; and how much it will increase the value of your property. We guarantee all work.

REDEO FEATURE OF STATE FAIR

Stamped To Be First Of Kind Presented In Mid-West Officials Say

Detroit, Aug. 12.—Brahma steers, a cross between the famous sacred bulls of India and the Texas longhorn, have been obtained for the steer bulldogging contests of the Wild West rodeo engaged for the Michigan State Fair, Sept. 1 to 7.

The rodeo, or stamped will be the first ever seen in the mid-west. It will rank in size with the great round-ups of Pendleton, Ore., Cheyenne, Wyo., and Calgary, Alberta. Afternoon and evening performances will be held. The rodeo will be the main feature in the grandstand show at the fair which will include aerial fireworks in the evening, a type never before seen at the fair. 15 saddle-vill acts and a concert by Al Sweet's band in cowboy costume. Canada's greatest "Kittie" band, the 21st Highlanders, will be heard in a concert each evening at the Horse Show in the Coliseum.

The Brahma type of steer, a cross load of which will be brought to the fair for the rodeo bulldoggers, is considered the most vicious variety, and in bulldogging contests are more savage and hard-fighting than the more familiar longhorn.

An electric machine is to be used in marking each coffee berry shipped from Brazil, stamping a sackful a minute.

Over-ripe bananas are now utilized in the manufacture of vinegar.

Have You Heard It?

TEMPLE

Radio Center

Heard the new Temple Radios at the Radio Center, on East Maple? Well if you haven't, you've something in store. It is a superb musical instrument in a console of dignity and beauty—a new miracle performed by the creators of the remarkable new Temple radio—a revelation in beauty, a miracle in tone. Just drop in and hear the new Temple, and the arrangement for a demonstration some evening in your home when the family can gather round to enjoy this new instrument.

Vacation Portraits

And vacation days hasten on but you can still preserve the picture of your youngster's fruitful days if you phone Mr. Arnold right now. He'll come over some morning next week and catch them in the midst of their fun. And how you'll treasure that portrait of happy little faces as time passes. Now is the time before school starts to have Mr. Arnold get the portrait of the little folks. His number is 905.

The shock of discovering a fire in her home gave Mrs. Frank Gille, a deaf mute, of Troy, N. Y., temporary use of her voice. She screamed an alarm, but after firemen arrived was unable to speak again.

After a business career of more than 60 years, Miss Willie Robinson, 88, of Seaford, Del., has retired. Her work as a seamstress led her into the dry goods and notions business.

DUTTON

The Dependable

Auto Glass

PRESERVE YOUR PRIDE—by replacing all cracked and shattered glass in your car. Nothing detracts so much from its appearance and reflects so unfavorably on your care and skill as a driver as broken panes in windows, doors or windshield. Call and learn how quickly and economically you can have damaged auto glass replaced here.

A Master Time Teller

WHEN it comes to telling time accurately and in a wholesome manner, that monument-time-teller located high up in the Metropolitan tower in Madison square, New York, probably occupies first place in the ranks of clockdom in America.

This clock is "up in the air" 174 feet, of which there are four, are almost 200 feet above the street. Obviously, they look out over a large portion of the metropolis and the surrounding communities—it having been said that "within range are visible the houses of over one-sixteenth of the United States"—and down upon the passing multitude. Each of its faces are 15 feet in diameter. The figures on them are 4 feet high.

This clock does not keep time, it merely tells time. The time is kept by another clock in the same building, transmitted to it by electrical impulses and this clock, simply though proudly, passes the time along to the public. In the quarter hours the other clock puts into operation electrical impulses which cause huge hammers to strike large bells which announce the time in the notes of the historic Cambridge chimes. The four bells of the chime weigh 13,500 pounds. As nightfall approaches, at any time for which the mechanism is set, the time-keeping clock closes a switch and the faces of the time-telling clock become brilliantly illuminated.

(© 1928, Western Newspaper Union)

Arrested for driving 15 miles an hour on a highway near Gary, Ind., Al Shaw of Chicago, paid a \$5 fine on a charge of holding up traffic.

Banners on Chicago automobiles arriving in Windsor, Ont., a few days ago bore the inscription: "Don't shoot; I have to hook up this car."

A radio "out" has been invented which can be set to turn off the radio at any time, thus enabling a listener to go to sleep knowing that the set will function at the proper moment.

On Airways or Highways

when performance counts

products of the Standard Oil Company (Indiana) are chosen. Their dependability is proved.

The planes of the Universal Aviation Corporation, as part of the new coast to coast air-rail passenger service, carry passengers and mail on regular schedule. The lubrication of their Wasp, Hornet and Wright Whirlwind engines is a vital matter—entrusted to this Company because it offers a Specialized Lubricating Service and a Quality of Oil unequalled.

Day in and day out, Stanolind Aviation products faithfully protect airplane engines of the Universal Aviation Corporation against friction.

Iso-Vis and Polarine

as faithfully protect automobile engines against friction. These two motor oils are unusually sturdy and unusually rich. They stand up under every strain of modern driving. They insure smooth performance and a long life for modern motors.

Iso-Vis is a newer motor oil—equally dependable. It represents a sensational advance in lubrication for it will not thin out. Motorists drive for 1000 or 2000 miles without draining Iso-Vis.

Polarine has been kept abreast of developments. It is a modern oil for modern engines—with the reputation of years of satisfactory service behind it. Drain Polarine every 500 miles and you'll have no lubrication worries.

If the performance of your car counts—and if you'd like to keep the engine young and healthy—use Iso-Vis or Polarine of the grade manufactured for your car. At any Standard Oil Service Station and at most garages.
