Outstanding, by Any Measure of Value

\$855
(Two door Sedan at factory, special equipment extra)

BECAUSE it represents our earnest endeavor to give you more than an average dollar's worth of real value for every dollar invested—we ask you to make a critical inspection of Model 612 before selecting any car in or near its price class.

Lift the hood and see the big 62 horsepower motor with a seven-bearing crankshaft. Not only in the motor, but all through the 612 (which weighs 3,125 pounds, ready for the road) you will find extra size, extra weight, and extra strength. Experience has convinced us that every pound of this greater weight is essential to fine performance, comfort, long life and safety.

The four wheel hydraulic internal expanding brakes are larger than usual in a car at this price, and fully protected from dirt and water. Service and emergency brakes are entirely separate—to provide the safety to which we believe every motor car buyer is entitled.

Examine the 612, the completeness of its equipment and appointments—then make your own comparisons.

The Chinese Suggest An Idea

From a modern view point the methods followed by Chinese medical practitioners may be open to criticism but the Chinese method of paying the doctor a regular fee to keep them well has much to commend it.

It would be to the best interests of people of this country—and of this village—to give their physicians a fair opportunity to help them keep well.

A tremendous step in the right direction would be to have a thorough physical examination made at least once a year.

You are bound to profit by practicing such a method.

Let us fill your prescriptions whenever medicine is prescribed.
