Little Chats About Your Health
No. 46
When There Is No Turning Back
Far above Niagara, Lake Erie's water starts imperceptibly on its course toward the great Falls. Slowly its speed increases until finally an irresistible current carries anyone caught within its mighty sweep to certain destruction. In much the same way do habit-forming drugs insidiously control their victims until their hold is as hard to resist as the current which plunges over Niagara. The way to avoid such a danger is obvious. Take nothing of a habit forming nature unless under the guidance of your physician. Always trust health matters to him and let us fill your prescriptions.
