## Little Chats About Your Health

There are certain ideals and services in conducting a drug business which mean a great deal to patrons, but which are frequently ignored or lost sight of by the druggist. For instance, the highest attainment of the real drug store is the preparation of medicines on prescriptions of physicians. Nothing is more important than that with us.

Nor is it within the province of the drug store with ideals to push the sale of proprietary preparations of various kinds which encourage self diagnosis and self medication on the part of the user. Whenever you are ill enough to need medicine you are ill enough to need the advice of your doctor.

In these columns we shall point out from week to week why this is true—and why you should have your prescriptions filled by a drug store such as ours which specializes in this important work.
