Pierce St. vs. Woodward Ave.

Members of Birmingham's village commission last week, after twice considering the proposal of manager Parry and engineer Corson that Pierce street be used as a north and south dividing line for renumbering the village, finally okeyed the plan, thus eliminating, Woodward avenue, south of Maple avenue, as the traditional base line. This means, then, the Birmingham will have some new east and west streets of the same name, such as Brown, Lincoln, and Frank.

William Randolph Hearst, journalism ar excelent and, peradventure, way beyond the fondest dreams of ordinary newspaper Utopian dreams, has now come forth with an offer to give \$25/000 to the person who can prepare a "plan to repeal the eightenth amendment and substitute in place of problistion a more liberal and more American measure, which will secure for the public more genuine temperance, with less offensive interference with the fundamental rights and personal liberties of the citizen."

mendment and the Volsteid Act to legalized liquor raffic, to say the least. And our own guess is that affic. Hearst, with all his ability to grumble, will soon vertax his respiratory organ as he tries to arrange is grunts into a national anthem that will vise the susport of old John Barleycorn, the un-American sitzen of today.

THE PROCESSION STARTS from Birmingham they at 6 a. m. to wist the state prisons at lonia of Jackson. J. E. McKullen, control of the Linder under, who is an advocate of harsher treatment for immals, will be the guest of The Birmingham control on the trip. He will reveal in an article the next edition of this newspaper whether the next edition of this newspaper whether the phas changed his point of the Worman C. Orr, kland Gonny prosecutors, and Murl H. DeFoe, toor of the Charlosce Republican-Tribune. bers of the party, will also have thei orded in an early edition.

YOUTHFUL PAT O'BRIEN (young despite his se score and ten age) humorously laments the that he missed some of the 5,600 plum puddings ted by a London, England, hotel chef, each go being thoroughly soused in strong liquor. Well, judging from newspaper reports, more than tumber of puddings could have been soused in courty if your sheriff had kept his conflicated or outsil the holidays.

It Is Always Working

How the law of compensation, that works days as well as nights all over the world, has applied its regulatory rules to traffic conditions between Birningham and Detroit was apply attacted by village commissioner. Lee A White last week. "Ten years ago, over a sixten-foot pavenent, it took me about an hour to reach Birningham from downtown Detroit," said Mr. White to his fellow-commissioners. "Today, with splendid wide highways, it requires about the same period of time; increased numbers of motor cars, and traffic stop and go lights have decreased the efficiency of the speed that more and wider highways romised us." Well, we all agree with Mr. White's symposium on the subject, and probably join with him should he ask: "What shall I do with time saved getting from where I am to where I want to be, anyway?"

Just An Exaggeration

In his recent declaration that prohibition is opposed by two temperance influences, namely, the Episcopal Church and the Hearst Newspapers, William Randolph Heart has stretched the truth. Of course, he may well speak for the Hearst papers; but the Episcopal Church has newer favored the repeal of the eighteenth amendment, we are reliably informed, although a group from within a small minority of the Episcopal Church, styling themselves as Church Temperance Society, have come out for a change in national legislation on the liquor question. This group, too, has been severely criticated by the country's Episcopal leaders. So it looks as though Mr. Hearst really stands only with the brewers and distillers, whose stook (wet or dry, or both) he must feel a kindly interest in.

IN THESE STRENUOUS DAYS of industry, when a tax of some port or other is charged against most business or professional service to society, it is gratifying to learn that Michigan refuses to tax a certain thing occasionally. For instance, a soldier stationed up near the Soo finds that he can open a tattooing establishment without having a Beense fee, tattooinf ought without paying for a license fee, tattooinf ought to become a fairly cheap ornament—within the reach of even the most humble income. No longer will arms and legs have to go unadorned.

"GUNMEN SHOOT LAWYER", stated a Detroit Times headline the other day. Now may we expect some changes in criminal prosecution procedure in our courts. A few more such shootings and legal profession will tumble to the fact that it, more than any other single agency, can clean house in metropolitan underworlds.

* ROY CRISSEY, in the Midland (Mich.) Republican, last week said: Ruth Elder has flu, reads a headline in the New York World. Shouldn't this Ruth Elder has flown? (No, Roy, our own notion) is that it should state "Ruth Elder is flighty.")
