If Germs were Huge as Dragons

If germs as huge as dragons roamed your rugs, with what awe you would regard the instrument which devoured them! But germs are none the less terrifying because they are infinitely small. Nor is the marvel less because The Hoover removes them so easily.

Rather it is greater, for the ability of The Hoover to gather up, in its cleaning, millions of these germs—so small you cannot see them—only shows how thoroughly, how amazingly, it removes all types of dirt from your floor coverings.

This it does through a combination of three separate cleaning principles, beating and sweeping and suction. The most remarkable of the three is the exclusive beating principle—which only The Hoover possesses—"Positive Agitation." "Positive Agitation" works deep in the rug, opening wide the pile, vibrating the fabric on a cushion of air, and shaking out of the spread-open tufts and the myriads of tiny pockets the heavy sharp grit and the caked dirt.

It is because of this deep-cleaning of "Positive Agitation" that The Hoover is able to remove more dirt per minute than other cleanings methods.

Phone us for a demonstration in your own home. Model 343 Hoover, \$59.50; Model 700, \$75. With dusting tools, \$72 and \$87.50. Floor polisher, \$7.50. Only \$6.25 down; balance monthly. Liberal allowance for old cleaners.
