## Villagers and the Village

By THE WANDLER

The Wanderer has heard it rumored that plans to match the colorful new "swagger" hats are being worn by the ultra-collegiate. And now the speculation is just what young villager will be the first to introduce the fad here.

A near train wreck was reported at 11:30 a. m. Monday when an engine was thrown off the track at the R. C. Mouthrop siding by broken rail. No damage was reported.

Beggars must learn considerable in the way of every day psychology. Although in the city the seasons make little difference, the warm spring days have brought the professional beggars to Birmingham.

Children of the Quanton School will stage an entertainment here April 2 under the direction of Miss Edith Roach. It was announced today, "The Palace of Cerchidene" is the name of the bill.

Someone will be placed on the municipal building at an early date following the award of contracts to the Burroughs company of Portland Me., who will complete the work for \$1,075.

Often suggestions from a casual observer relative to preventatives for traffic accidents are of more worth than suggestions from persons who make a study of it. The summer is near and Birmingham again faces heavy traffic and probably more accidents. What is your suggestion to make the

### SCHOOL NEED TOLD TO LIONS

(Concluded From Page 1)

Members said, although no definite date has been set, work will be started in June with the plan of having the building ready for occupancy the following February.

22 Rooms

The completed unit would have 22 rooms, 15 being added by the proposed addition. It would be a building 264 feet by 206 feet and would be constructed at a total cost of \$263,000. The school would rank among the finest in the county, board members declare.

Approximately 700 junior high and grade school students would be housed in the building, offering a capacity equal to that of either the Baldwin or Adams schools.

The congested condition in the Barnum area makes a larger building imperative, board members believe. Members of the Barnum Parent Teachers' association have convened with the board asking that immediate relief be given their school area. They also expressed approval of the proposed swimming pool.

The plans for the Barnum unit show ample provision for a health department, cafeteria, community room, auditorium, gymnasium, and departments for art, manual training, domestic science, sewing, commercial work and science.

Provisions would be made for shower and locker rooms in connection with the pool which would be 25x75 feet. A spectator's gallery would offer a large seating capacity.

Members of the board are confident after their consideration of numerous plans, that the proposed Barnum unit is the best solution to the situation. They believe that economy and convenience are combined in this plan.

Problems confronting the Birmingham board of education were outlined Tuesday by Clarence Vliet, superintendent of schools, in his talk before the Women's Literary Club at the Baldwin Public Library.

He pointed out the growing demands of the village and the difficulties in adequately housing the students, citing the instance of the Barnum school unit.

## A Harrowgate Youngster Goes Out to Play

Except when it's raining pitchforks, a fellow almost lives outdoors. You can scout through the woods, or sail your sloop in one of the lakes, or get up a game of fox and hounds. Gosh! It's sport out there in the hills! Mother and Dad don't have to urge us to go out to play. They say the trouble is to keep us in!

Harrowgate, Birmingham's newest and (we're sure you'll agree with us) most highly regarded development, is within the village limits on Chesterfield—just south of Quanton Road.
