

MARQUIS BACKS LAW STAND OF PRESIDENT

Decided backing of the law enforcement program...

As a whole, is headed for a fall unless it is capable of being aroused and made to see and adopt higher ideals.

We, the people of the United States, have a very high opinion of ourselves. We give our loudest applause to our political speakers...

Civilization Defined Civilization has been defined as the art of living together.

Of course, we will admit that the older nations have traditions of value which we do not have.

way, which of course being the new way is much the better way.

The older nation has a tradition on which we do not have and they also possess, because of their age, a culture and an art not possessed among us.

Of late some things have happened that are worrying us. We are becoming more and more conscious of the fact that the old world is not holding us in the high esteem we once thought it did.

Worry Now But there are things of deeper concern than our international situation...

President Hoover the other day before the Associated Press touched on the gravest of our national...

son of other people who have laws which they respect.

DR. S. S. MARQUIS diseases—a mental and moral disease which is breaking down the sense of individual responsibility in public life...

Worry Now But there are things of deeper concern than our international situation...

President Hoover the other day before the Associated Press touched on the gravest of our national...

There are many reasons for this condition. Among them are the war; lack of early religious training; bad home influence—broken families; low order of mentality and weakness in law enforcement.

Influence of the press for good or ill is another cause mentioned by the president. He said: "I wonder sometimes, however, if perhaps a little more support to our laws could not be given in one direction."

"Our people for many years have been intensely absorbed in business, in the astonishing upbuilding of a great country, and we have attempted to specialize in our occupations to strive to achieve in our own specialties and to respect competency of others."

"This attitude of mind is destructive of self-government. For self-government is predicated upon the fact that every responsible citizen will take his part in the creation of law, the obedience to law and the selection of officials through methods for its enforcement."

the problem of law enforcement is not alone a function or business of government. If law can be upheld only by enforcement officers, then our scheme of government is at an end.

The lawless are not likely to begin a reform. The cure for this condition must begin at the top.

"The lawless are not likely to begin a reform. The cure for this condition must begin at the top. Certainly the murderers and bandits are not going to organize themselves into an uplift society and start a general reform."

"The lawless are not likely to begin a reform. The cure for this condition must begin at the top. Certainly the murderers and bandits are not going to organize themselves into an uplift society and start a general reform."

"The lawless are not likely to begin a reform. The cure for this condition must begin at the top. Certainly the murderers and bandits are not going to organize themselves into an uplift society and start a general reform."

WE HEARD IT SAID BY— Rev. Charles McCurdy, former rector of St. James Episcopal Church. "Credit for the start of the Birmingham Community House six years ago goes in a large measure to Mrs. Robert Berry whose determination to back the project added great zest to the organization work."

If you are going to trade-in your car

MANY families are about to trade-in their present cars for new cars. It will be to their interest to read and remember the basic facts about used car allowances.

- 1 Your present car has only one fundamental basis of value. That is, what the dealer who accepts it can get for it in the used car market. 2 It has seemingly different values because competitive dealers are bidding to sell you a new car. 3 The largest allowance offered is not necessarily the best deal for you. Sometimes it is; sometimes it is not. 4 An excessive allowance may mean that the new car offered you has been excessively priced. 5 FIRST consider the merits of each new car in comparison with its price, including all delivery and finance charges. Then weigh the different allowances offered on your present car. 6 A trade-in transaction is a PURCHASE, not a sale. Its real measure is whether you get FULL NEW CAR VALUE for your present car, plus the balance that you pay in cash.
