Dinner Stories

passer-by stopped. "Excuse me, sir," he said. "Perhaps I can assist you?" "Certainly not," replied the reveler. "Sout of the question." He continued his unsuccessful attacks on the keyboard. "Look here," said the other man a moment later, "I'll knock for you." Again the intoxicated one shook his head with much vigor. "Most dehididly not," he protested. "Let'em wait."—Answers.

Have A Platinum Finish
Dr. Chargin—Madam, I shall have to paint your husband's throat with nitrate of silver. Mrs. Highbrow—Oh, doctor, use gold—the expense is quite in-

material.—Pathfinder.

In a country newspaper appeared the following advertisement: "The man who picked up my wallet in Fore Street was recognized. He is requested to return it." The next day this reply was published: "The recognized man who picked up your wallet requests the loser to call at any time and collect it."—Pearson's Weekly.

Too Much in It
Coroner—And what were your husband's last words, madam? Widow—He said, "I don't see how they make much profit on this stuff at a dollar and a quarter a quart."—Brown Jug.

Choice of Evils
Helen—Yeah! Well, I'd hate to have everyone ignore my existence the way they do yours.—Cincinnati Inquirer.

For further information, call at the office, phone Pontiac 2-3551, or mail this entire advertisement, underscoring the branches in which you are interested. Name _____ Address _____

New Lamps for Old It is Easy to Renew Lamps

The modern, high-efficiency electric lamp has a useful life of approximately 1,000 hours of illumination. After this period, the glass bulb rapidly becomes blackened, and the lamp should be replaced by a new one. The Detroit Edison Company maintains free renewal service for its customers using service under lighting contracts. Blackened and burnt-out lamps in all ordinary sizes—both for store and household—are exchanged without charge at any Detroit Edison office.

Dust, soot, and blackening due to age may diminish the light furnished by an electric lamp to one-half of its original illuminating power. This means that as much as half the electric current you buy may be wasted. Lamp bulbs, shades, and reflectors should be cleaned once a month with an ordinary damp cloth.
