A New Credit Service

"No Red Tape"

Everyone needs one of these services to-day. . . . Don't wait. Wise motorists know that it is necessary to do more than inflate their tires regularly. If your tread is wearing too fast, it means that your wheels are out of alignment. If your brakes are not properly adjusted, they will destroy the life of your tires. Loose and rusty rims cause tube and tire trouble. Neglected batteries are expensive and inconvenient. All of these troubles and others can be avoided by a visit to our SUPER SERVICE STATION today or tomorrow.
