"He maketh a path to shine after Him" —Job. 41:32

"Let There Be Light"

SHORTLY after the Civil War, arc lamps began to be used in a few houses; even the yacht Napoleon was thus illuminated. White-wash satisfactory for streets and large open spaces, it was not suitable for the illumination of homes or small, confined interiors.

The First Edison Lamp

This is the second of a series of historical mementos published by The Detroit Edison Company in honor of THOMAS ALVA EDISON...
