What is a REXALL 1c Sale

It is a sale at which you purchase two identical articles, paying the standard price for one and only one cent for the other. For example: The standard price of Klenzo Dental Creme is 50 cents. During this sale you may buy two tubes for 51c and thus save 49c. Every article in this sale is a high quality, guaranteed product being sold all-year-round at the standard price. No limit—buy all you want. Remember, this sale lasts three days only.

Profit-Sharing Advertising

This sale has been developed by the United Drug Company as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you two full-sized packages of high quality merchandise for the price of one, plus one cent. It costs money to get new customers, but the sacrifice in profit is justified, because we know that these goods will please you.
