

IT'S HERE

THE *New* WESTINGHOUSE

THE *One* REFRIGERATOR
THAT COMBINES ALL 3
OF THESE REFINEMENTS

*Latest contribution of
Westinghouse Engineering Genius*

MARK up another achievement for Westinghouse... who first harnessed the waters of Niagara and made them light a million homes... who pioneered in radio broadcasting... who brought new ease to housekeeping with Flavor-Zone cooking and the first automatic electric iron!

After twelve years of study... research... experimentation... they now score a fresh triumph... with a NEW Refrigerator.

It is the first, the only refrigerator which offers ALL the refinements considered essential today. A low, flat Buffet-Top on which to place dishes when opening the doors. Broom-High Legs under which one can sweep with ease. A Temperature-Selector to vary the freezing speed.

All these refinements are made possible in the new Westinghouse by an advanced type of freezing mechanism which incorporates radical mechanical and electrical improvements. Being smaller and lighter, the unit tucks away under the hood, leaving the Buffet-Top clear, permitting Broom-High Legs. Flexibility of control allows the use of the Temperature-Selector with its wider range of freezing speeds.

A remarkable mechanism in every way! It is hermetically sealed and dust-proof... very much faster freezing... decidedly more economical in current consumption.
