

WAR ON "DEER SHINERS" OPENED BY STATE CONSERVATION DEPT.

LANSING, Aug. 14.—War has been declared by the Department of Conservation against deer shiners and Hugh E. Green, chief conservation officer, has returned from the upper peninsula after organizing deer shiner squads...

Modernized methods of deer shinning has forced his men to adopt better means of apprehension, Mr. Green said, following his investigation of the upper peninsula situation...

The squads will work entirely at night and will have no other duties than to spot and catch deer shiners, Mr. Green said. The squads will be properly equipped and will carry the authority of regular conservation officers...

Use Modern Methods As in all other forms of law violations, conservation law breakers have adopted modern methods, Mr. Green said. A few years ago the deer shiner walked to the woods...

Today the deer shiner rides to some isolated road in an automobile. He stands in the car or beside it, using the spotlight of the car to find the deer...

WHO'S WHO AND TIMELY VIEWS

By C. C. YOUNG, Governor of California. (Clement Calhoun Young was born at Lenoir, N. H., April 23, 1869. He is a graduate of the University of California. He taught high school in San Francisco for 10 years, and was engaged in the real estate business there for 20 years. From 1902 to 1910 he was a member of the California assembly, being speaker of the house the last six years. In 1912 he was a delegate to the Republican national convention. From 1919 to 1927 he was lieutenant governor of California. He was elected governor in 1927.)

WE LIVE in a semi-arid state, but it is a very beautiful state. It has more variety of climate, scenic beauty and of opportunity for those who come here than any other state in the union. We are proud of it, and are extremely happy that fortune has allowed us to live here...

Beaver poachers have learned to better conceal traps from the eyes of enforcement officers by arranging apparatus that draws the traps into the water when beavers are caught. As a result more careful inspection is made by officers at all beaver colonies and dams.

Through the use of a competitive examination system in hiring conservation officers, the quality and efficiency of the enforcement force is increasing constantly and is resulting in a better cooperation between the public and the Division. This has proved to be one of the most successful features of the success of the force, it was said.

State Starts Fish Hatchery Project

Lansing, Aug. 14.—What will eventually become among the largest bass and bluegill rearing ponds in Michigan were accepted by the Conservation Commission at its August meeting when it voted to accept a deed to 84 acres of land near the City of Hillsdale.

The Hillsdale County Chapter of the Izak Walton League has raised \$4,900 for the purchase of the land and will turn the property over to the Department of Conservation which will develop and operate the ponds.

List of Mistakes See Picture on Page One of This Section. 1—Ship in distance out of date. 2—Palm trees do not grow on rocky peaks. 3—Motor boat to close inshore. 4—Girl would not dive inshore. 5—Shadow of man and girl go toward the sun. 6—Small tree would not grow on sandy beach. 7—Pail in foreground has unfinished design. 8—Design on ends of beach rug do not match. 9—Girl would not wear earrings. 10—Man has only three fingers on left hand. 11—Man has slipper on one foot. 12—Letter "N" on man's suit unfinished.

Now is the time to get YOURS. Just remember the one fact — after years of experience, after testing this value and that, "more people ride on Goodyear Tires than on any other kind!"

Competitive conditions are tightening up in the tire business. These superiors are not sales claims; they are real. Any Goodyear Dealer will be glad to demonstrate the facts.

water table has been lowering from year to year—that some of it has entirely gone dry where the water table has got so low that it is not economically feasible to pump that water up to the surface.

Just exactly the same thing is going to happen in other parts of California, as the country fills up and greater demands are made on our water resources. We have recently drawn a curve which shows that within 20 years we are going to have a state of more than 10 million population, and when we pass that mark it means that we are going to have a vast number of people here who must be fed, and can be fed only by a more extensive irrigation system; and that means that we must sustain a more intensive agriculture.

Therefore, the big job we have before us is to see to it that the waters of the state are conserved so that their greatest usefulness may be reached.

Smart buyers are getting bigger tire values now than ever before!

These superiors are not sales claims; they are real. Any Goodyear Dealer will be glad to demonstrate the facts. The facts certainly are: Goodyear Tires do give greater value. As far back as 1916, it became a fact that more people ride on Goodyear Tires than on any other kind. Every year since that time, it has been increasingly true that more people ride on Goodyear Tires than on any other kind. Today this preference for Goodyears runs into millions: millions more people ride on Goodyear Tires than on any other kind. There can be only one conclusion: Goodyear Tires must be better—and at present prices they are a matchless bargain. Now is the time to get yours.
