Mr. Voories, through his investigation in the grand jury investigation into the slaying of Jerry Buckley in Detroit, is expected to assist largely in the success of the investigation in Oakland County.

It is also expected that Mr. Orr will be retained as a special assistant to lend what knowledge he may have of wrongdoing in county affairs.

Judges Issue Statement: The actual taking of testimony of witnesses by the jury is not expected to be begun until after the middle of January, officials believe.

Although no county official has discussed where the inquiry will start, it has not been denied that the Oakland County Tuberculosis Hospital will be included in the investigation.

The following statement was issued Friday by the three Circuit Court judges:

Charge of the grand jury to conduct a thorough investigation in to all of the affairs of Oakland County. The judges felt very fortunate in having been able to secure Mr. Voories' services, which has connection with the case carries with it an assurance that the investigation will be thorough and far-reaching and shield no one. It is also fortunate because, if the county were under the necessity of employing outside counsel, it is necessary to pay out considerable sums for attorney services. In a matter of this kind, it is necessary to do a great deal of preliminary work before the grand jurors are summoned.

"The county auditors will be asked immediately to tabulate all that the investigation will be in their possession and, as soon as Mr. Voories has assumed his office, the preliminary work necessary to the calling of the grand jury will be undertaken. This may require several weeks but will be finished as speedily as possible and, it is hoped, by Jan. 1, 1931, at the latest. The matter is thoroughly disposed of."
