W. G. I. J. How You've Grown!

.. and we smile quite modestly

Maybe when people say that to us we should get all puffed up over it. Sometimes we do, but mostly we just dig our toes into the floor and act nervous like.

Sometimes we used to say to our commentaries: "Well, you know the town is growing pretty fast, Bill." And that was our way of disposing of the praise of friends and business associates.

But that isn't being really honest with ourselves or our friends! The town has grown! But we are growing much faster! Do us and yourself a favor. Drop in and look this business of ours over. You're going to be surprised!

You're going to find THIRTY-EIGHT (38) people working here. Not two or three, but THIRTY-EIGHT. And then you'll note the equipment. Well, this equipment and its operators represent the LARGEST COMBINED PRINTING AND PUBLISHING PLANT IN OAKLAND COUNTY.

Possibly you're missing a good bet by not having your printing done in Birmingham. It's mighty convenient and we'll gladly furnish the opportunity to have you use our facilities.

Incidentally, we plan, create and execute direct by mail advertising as part of our printing service.
