

D'Molays To Hold Annual Golf Meet

Fifteen boys are expected to enter the annual De Molay golf tournament which will be held Wednesday at Bloomfield Township park. The teeing off will be at four o'clock. A number of prizes will be awarded, including a prize for the lowest score, one for the longest drive, etc. In the evening, there will be a program of entertainment in the clubhouse.

tlement of such a moral issue as prohibition. This looks like another of these "smart Society" fads, for supply any of these sisters who have taken time to make a study of the history of the evil of drink should know better.

"Furthermore, what do these antagonists of constitutional sobriety propose? What do they propose as a substitute for national prohibition? One looks over the press reports in vain to find a single constructive or helpful suggestion emanating from their meetings. It doesn't matter if they propose to be a knocker! Let them propose a better plan before they start to tear down that which we now have!"

"Be not deceived by fine sounding phrases, if they and their kind should succeed, it would simply mean the return of the saloon with all its horde of blighting and damning evils. From such may the good Lord deliver us!"

"As to their chances for success in repealing the 18th Amendment, I am not greatly disturbed; for I am sure that we can safely trust the good common sense of the majority of our people to set these over-privileged advocates of personal liberty. Nevertheless, in these days of confused minds and studdled thinking, let every one who has charity of moral and spiritual vision stand steadfast and immovable for decency and order. Surely, in the face of the moral laxity of our time, there can be no justification for a let-down of the standards of righteousness and sobriety."

mitted, to a post on the west side of the building. Commissioner Robert E. Allen was, well, astonished. Commissioner Tucker, being a gentleman of the dental profession, knows that bronze signs cost money. He said so.

The suggestion that a green light, the traditional indication of a safe police cell, be belittled by the village manager. "People might take it for a drug store," he said. Commissioner Maurice Lowman suggested an electrical sign. Commissioner Tucker, an aluminum one.

Commissioner Allen wanted the sign changed from "Police Department" to "Police Dept." It saves space and money, he explained. The matter was referred to the manager for other signs at lesser prices. President Harry Allen and Commissioners Charles E. Lewis and Lawrence Hulbert did not comment on the signs. They were not there to comment.

New Hampshire was the first state to require formal registration of voters, in 1840.

JUNE COURT RECORD GIVEN BY JUDGE HUNT

Fines collected in the court of Justice Malcolm Hunt during June amounted to \$484.90, his monthly income to the village shows. Of this, eight speeders paid \$130, and the case against another was paid \$100. Four persons were charged with driving while drunk paid fines of \$300. Reckless drivers numbering three paid \$50. Four persons were brought to Justice Hunt's court charged with disorderly conduct. One paid a \$10 fine, one was committed to jail, and one paid court costs of \$3.50. The case against a fourth was dismissed.

cently resigned as chairman of the board of directors of the Community House, said that Miss Jahraus has greatly benefited the village and that her relationship with the Community House is "very pleasant."

"Miss Jahraus was not under the supervision of the Community House. We merely gave her office space, telephone service, files, etc., while the commission paid the salary. I hope that we may be able to get as good a nurse to succeed her. Everybody in the Community House liked her. She was well-known in the Community Union in Detroit. Her report last month showed the remarkable amount of work she did, more than 200 calls having been reported by her. I hope that we may get a graduate of the Grace Hospital Nursing School, Miss Jahraus has also been connected with the Henry Ford Hospital and the visiting Nurse Association of Detroit. She came to Birmingham three months ago. The committee that supervised her activities is composed of Mrs. Hope E. Halgren, Mrs. Frederick Holt, Mrs. L. N. Pyle, Dr. James Haszberger, Dr. A. W. Newitt and Mr. Ray Palmer, and Commissioner Lawrence Hulbert.

Due to the absence of Mrs. Halgren, who will not return until Sept. 1, it has not been decided whether to appoint a successor to Miss Jahraus.

Vaughn, Malcolm Hunt, Maurice Lowman, Robert McClelland and Scott Harney. Mr. Bayley denied that he, too, was seeking the job. Mr. Bayley announced, however, that his appointment would be made within a few days. The board is composed of Mr. Hunt, Mr. Bayley, Vaughan and E. J. Coryell, who will take office tonight.

Moore, who was chairman of the county board of supervisors, resigned his post to be named successor of Edward C. Severer, of Orionville, a member of the county board of auditors for 10 years. Willis M. Eveser, chairman of the board, resigned, effective June 15. Severer resigned because of ill health and Eveser, he said, he wished to enter private business.

The selection of Patterson, who is only 26 years old, and a member of the board of supervisors only since April, was a surprise. Bruce Leggett, supervisor from West Bloomfield Township, was named chairman of the board to succeed Mr. Moore.

HOLD TUBERCULOSIS CLINIC ON TUESDAY

A tuberculosis clinic will be held Tuesday morning at the Community House. Sanatorium patients and contact cases are invited by Mrs. Olga Berning, public health nurse, to go to the House at that time for examination.

lons a minute against a 270-foot height.

Although it has not been in operation since last October, officials say, the Baldwin well was working satisfactorily last night when the Lincoln well which is usually in operation 16 hours each day. Several reasons for the failure of the well are given. The recent test, which was said to be not entirely satisfactory as to quantity was due to the fact that the water was pumped into an open field instead against the normal pressure it would have encountered in the pipe lines. Another reason advanced is that the pipes long from the well being only six inches in diameter, are too small to afford a normal outlet for the forced flow and that 12-inch pipes should be installed. A third reason is that the operating force is only 700 horsepower when it should be 125 horsepower as is the engine at the Lincoln well.

In the agreement with the Harmon, Ness Co., builders of the well, the village was to be guaranteed a flow of 700 gallons per minute against a 270 foot head and that a bonus was to be paid for each gallon per minute in excess of that number, it was reported.

The Harmon, Ness Co., is one of several well-drillers who have sunk wells in the village in attempts to obtain a dependable water supply.

of Oakland County from April 1 to the opening day of the inland fishing season. This date is now June 25.

No motorboat may be driven at a speed greater than 20 miles an hour nor closer than 200 feet to any bathing beach in use, or within less than 150 of an anchored boat whose occupants are fishing unless throttled to less than five miles an hour. All motorboats must have underwater exhaust and if operated after sundown must have a light distinguishable at 500 feet.

No motorboat may be operated on an Oakland County lake or stream except by a person who is registered and licensed as a property rights or who has lake privileges. Operation of power boats will be limited to from 8 a. m. to 10 p. m. except on Saturday, when it would be extended one hour. On Sunday motor boats will be permitted to operate before 9 a. m.

All motor propelled boats will be registered and licensed at a fee of one dollar, and the number, except on outboard motor boats, must be painted on the bow. In the case of outboard boats, the license number would be displayed on a metal or wooden tag hung over the side. Provisions would be made for regatta racing by permission of the Oakland County conservation officers.

IS CANDIDATE

MELVIN J. DEER

Mr. Deer, who has announced his candidacy for Trustee of the Birmingham School Board, is the general accountant for the Oakland Motor Car Co. of Pontiac. Since he finished school and prior to his connection with the Oakland Motor Car Co. he has been employed as an accountant at various manufacturing concerns in the automotive industry in Detroit.

Mr. Deer says, "It is my opinion that a member of the School Board should give the same earnest thought and attention to the management of the school system as he would to his own business or profession."

"He should co-operate with the other members of the board in rendering to the public and community, the highest quality of educational facilities, and a conservative expenditure of the school funds, but not to such an extent that it would jeopardize the progress of our educational system."

"We should always be alert to the future. Need of expansion necessitates adequate facilities for handling exceptional growth of our school population which has increased so rapidly in the last few years and with every tendency of the future surpassing the past."

"Having been in very close contact with the youth of our community for the past several years, I have found that Birmingham has as fine a type of young manhood and womanhood as could be found in the universe. In keeping with this idea, we should continue to employ only the highest type of teachers, not only with the ability to instruct but with the personality that will assist in building the character of our youth."

"If elected to the office of trustee, I will perform the duties of that office and of the Board in unity and co-operation with the other members of the Board in the administration of the affairs of the Birmingham Public Schools."

Receives Degree

JAMES B. BAYNES

Following several years of study and research in the interests of modern electrical engineering James B. Baynes, son of Mr. and Mrs. E. C. Baynes, of Telegraph road, has received his Masters degree in Electrical Engineering from the Michigan State College.

Mr. Baynes lives in Birmingham with his family, who are old residents here. He was graduated from Baldwin High school in 1919 and from Michigan State College in 1935. He has been employed by the State Highway department at Pontiac for the past six years.

Cousins Re-unite At Pine Lake Club

One of the prominent social events of the season was the cousins' reunion given by Mr. and Mrs. Harold N. Davock of Dewey street, and Mr. and Mrs. William Buick of Detroit, Monday at the Pine Lake Country Club. The affair, which was given in honor of the homecoming of Mrs. W. G. Davock of the West year, also marked the twentieth wedding anniversary of Mr. and Mrs. Davock.

Among the cousins who attended the party about 10 were Birmingham people, the out-of-town guests coming from Detroit, Lapeer, St. Clair, and Jackson. They enjoyed golfing and swimming in the afternoon followed by dinner. Later in the evening the party went to the home of Mr. Davock where he showed some of the pictures of this recent African expedition.

Overeating and Underexercising

No combination of faults give rise to more harmful effects than eating too well and exercising too little. If your appetite makes you eat heartily then take advantage of Summer months to get lots of fresh air and exercise.

Avoid constipation as you would a curse. Laxatives will help you remedy a temporary condition, but if you are troubled by chronic constipation let your physician help you correct it. Consult him oftener and follow his advice. We will help your physician keep you in the best condition by filling his prescriptions with precision and care. We have highly skilled registered pharmacists for this special purpose.
