**The
WABEEK
SHOPS**

The Wabeek Building was erected to provide the highest degree of service and satisfaction to the business and professional people, and their customers, of Birmingham and Bloomfield Hills.

The type of tenants and their clients who would naturally seek space in this kind of building would require the utmost in convenience, day-light, parking facilities and floor arrangement, together with the assurance that their neighbors would be congenial and progressive.

The success of welding these ideals in stone, marble, bronze and steel is evidenced by the high degree of merchandise and business ethics of the building's tenants.
