C. M. T. C. ACCEPTS 6TH VILLAGE BOY

E. Bonnaville Avenue Youth Joins Organization Going To Camp Later

John R. Geggie, son of Mr. and Mrs. John T. Geggie, of East Bonnaville avenue, has recently been accepted for the Citizens' Military Training Camp, Capt. Lloyd L. Stanley announces. Geggie is the sixth Birmingham boy to be accepted, the others being Craig Pote, Malcolm Ewer, Charles Flower, Sanford Waring, and Harry Winborn. Several more applications are now under consideration, Captain Stanley says.

Captain Stanley believes that all young men who are not working should take advantage of the opportunities these camps offer. Some people object to them because of their so-called militaristic nature, he said. "As a matter of fact, less than one-third of the boys' waking hours are spent in military training, which consists largely of marching and maneuvering."

"The purpose of the camps," Captain Stanley continued, "is to make men good citizens. They give excellent physical, mental, and moral training, and provide a pleasurable vacation free of charge. Evenings are left free for entertainment at the community house, where dancing, movies, and other forms of play are provided under the supervision of a matron."

All Michigan boys will go to Camp Custer, where two battalions of the 339th Division, to which the Polar Bears belong, will be quartered. The first C. M. T. C., Captain Stanley explained, was established in 1913 at Plattsburg, N. Y., where 63 business and professional men were trained by the late Gen. Leonard Wood. The movement has grown so that last year 33,413 boys attended the camps in all parts of the country. As many as 37,500 are expected this year, Captain Stanley said.

WE HEARD IT SAID BY—

Glenn Rostie, building contractor, "Appointments to the United States Military and Naval Academies at West Point and Annapolis are not entirely dependent upon the State in which an appointee resides. Some Congressmen trade their appointments. Boys in the South, for instance, are more anxious to attend the military academy while boys from the Middle-west who seek entrance into Annapolis, frequently are in the majority. And so it happens that a Congressman from South Carolina may appoint several boys to West Point, trading his privilege with a Congressman from Michigan, who may send several boys to Annapolis."
